

## Reflection foil 600 x 1200 mm (orange)

Part No. 500114

The reflective foil provides a defined highly reflecting measuring target. It improves the reflected signal strength. This improved signal strength is used by the D-Series to measure long distance ranges.

Please **check the device specification** to ensure the applicable minimum distances.

**Size** 600 x 1200 mm ± 5mm

### Order information

Part No.	Description
500114	Reflective foil 600 x 1200 mm (orange), for self fitting, applicable distance range  D-Series ~0.5m (40m) ... 500m (please check device specification)
